ABOUT MED-RESTONIT

With over 60 years of combined industry expertise, Med-Restonit has earned a trusted name in delivering high-quality healthcare products at competitive prices. Our approach blends operational efficiency with uncompromising standards, enabling us to serve partners, wholesale distributors, and healthcare providers with excellence.

Trusted by leading retailers across North America, our products reflect consistency, durability, and superior craftsmanship. These valued partnerships reinforce our ability to scale seamlessly while maintaining the integrity and excellence that define Med-Restonit. At Med-Restonit, decades of expertise meet innovation to create healthcare products that truly make a difference.

We believe premium quality should be accessible—this drives our commitment to efficient production, trusted partnerships, and consistent results. Our growing network reflects the confidence placed in our brand.

OUR TECHNOLOGY

Med-Restonit products are designed using advanced materials to provide effective pressure relief, patient comfort, and long-term durability.

PRESSURE REDISTRIBUTION

Engineered to evenly distribute body weight, helping reduce pressure points and support skin integrity.

FOAM SYSTEMS

High-Resiliency Foam: Durable, long-lasting support

Visco Memory Foam: Conforms to the body for added comfort

Zoned / Cubed Foam: Enhances airflow and reduces pressure buildup

HYBRID AIR TECHNOLOGY

Select models combine foam and air systems to improve support and pressure relief in key areas.

RECOVERY 5 COVER

Breathable, fluid-resistant, and antimicrobial for improved hygiene and easy maintenance.

BUILT FOR HEALTHCARE

Designed for reliable performance in hospitals, long-term care, and home care environments.

APPLICATION GUIDE

Med-Restonit products are designed to support a wide range of patient needs across healthcare and home care environments.

GENERAL CARE & RENTAL

MR-1 | MR-2 | MR-2 PLUS

Reliable, cost-effective mattresses for everyday use.

Designed for basic pressure relief, comfort, and ease of patient handling.

ENHANCED COMFORT

MR-3 | MR-4

Provides improved pressure redistribution and patient comfort.

Ideal for extended use and higher-risk care environments.

BARIATRIC SUPPORT

MR-5 | MR-6

High-capacity mattresses engineered for strength and durability.

Delivers stable support and effective pressure relief for bariatric patients.

TARGETED SUPPORT

MR-7 SERIES

Advanced support surfaces designed for enhanced lumbar support

and pressure redistribution in key areas.

POSITIONING SOLUTIONS

WEDGES | CUSHIONS | PILLOWS

Supports proper alignment, elevation, and positioning.

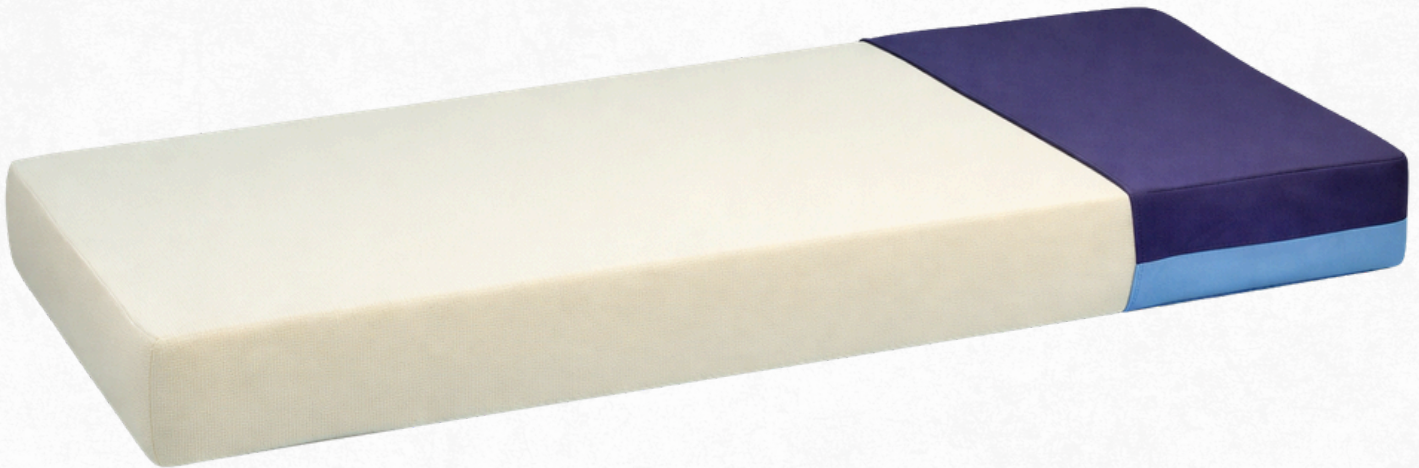

Helps improve comfort and reduce pressure in various care settings.

Suitable for rental and home care as well as general care applications, providing safer patient transfers, effective pressure redistribution, extended comfort, and advanced pressure relief. Available in models supporting up to 350 lb and 650 lb.

MR-1

Entry-Level Pressure Relief Mattress

An economical mattress ideal for **bed rental programs and healthcare environments**. Designed to provide reliable **pressure relief**, it features a **Recovery 5 breathable antimicrobial cover** that is **fluid-resistant and antimicrobial** for improved hygiene and durability. Suitable for **hospitals, long-term care facilities, nursing homes, and home care settings**.

Thickness	6"
Size	36" x 80"
Cover	Recovery 5 breathable antimicrobial cover
Capacity	250 lb

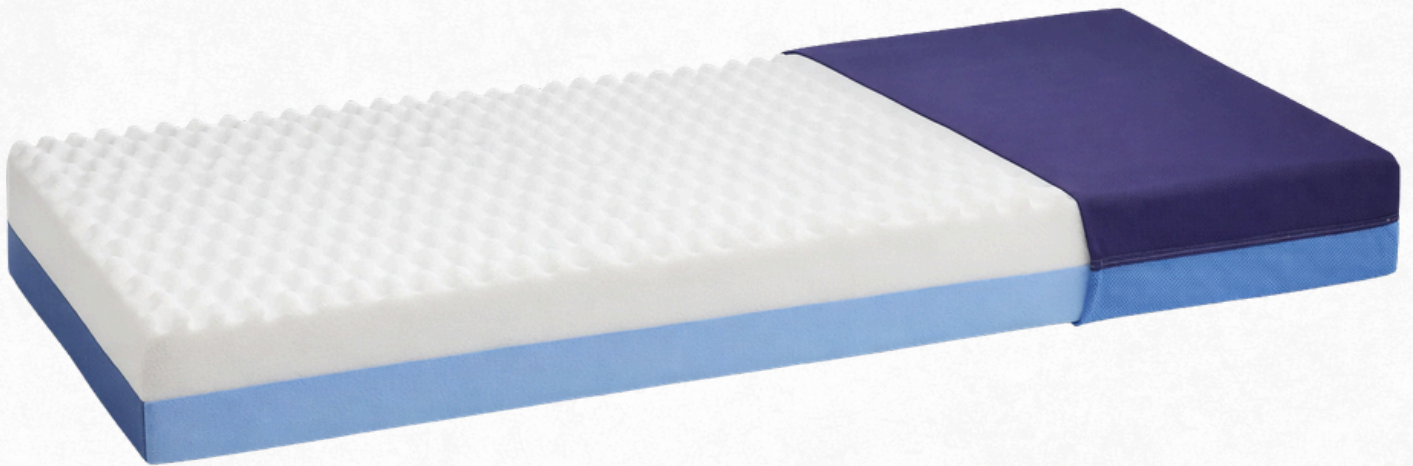

Antimicrobial Cover

Fluid Resistant Cover

MR-2

Zoned support foam mattress delivering balanced patient comfort.

Designed to provide **enhanced comfort** and **pressure relief**, the **MR-2** mattress features high-resiliency cubed foam that helps **redistribute pressure** and increase the body's contact surface to reduce peak pressure points and support skin integrity. The mattress is protected with a **fluid-resistant, breathable antimicrobial cover** to promote hygiene and durability. Suitable for hospitals, long-term care facilities, nursing homes, and home care environments.

Size	36" x 80"
Cover	Recovery 5 breathable antimicrobial cover
Capacity	250 lb

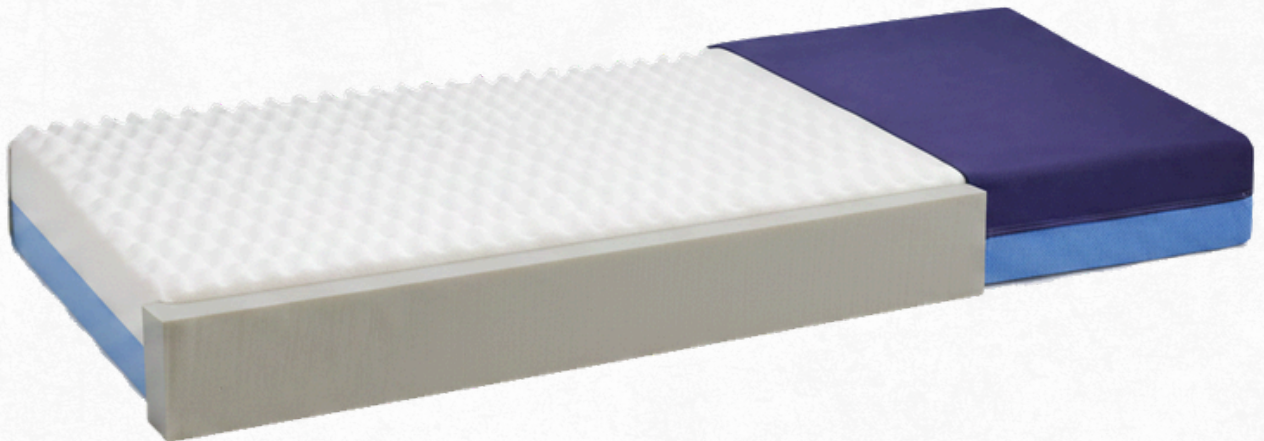

Antimicrobial Cover

Fluid Resistant Cover

MR-2 PLUS

Reinforced transfer edge design improves patient stability during transfers.

The **MR-2 PLUS** is designed with **reinforced transfer edges** to assist with safer patient transfers and easier completion of bedside daily activities (ADLs). Built for durability and patient comfort, it is an ideal solution for **hospitals, long-term care facilities, nursing homes, home care settings, and rental programs.**

Thickness	6"
Size	36" x 80"
Cover	Recovery 5 breathable antimicrobial cover
Capacity	250 lb

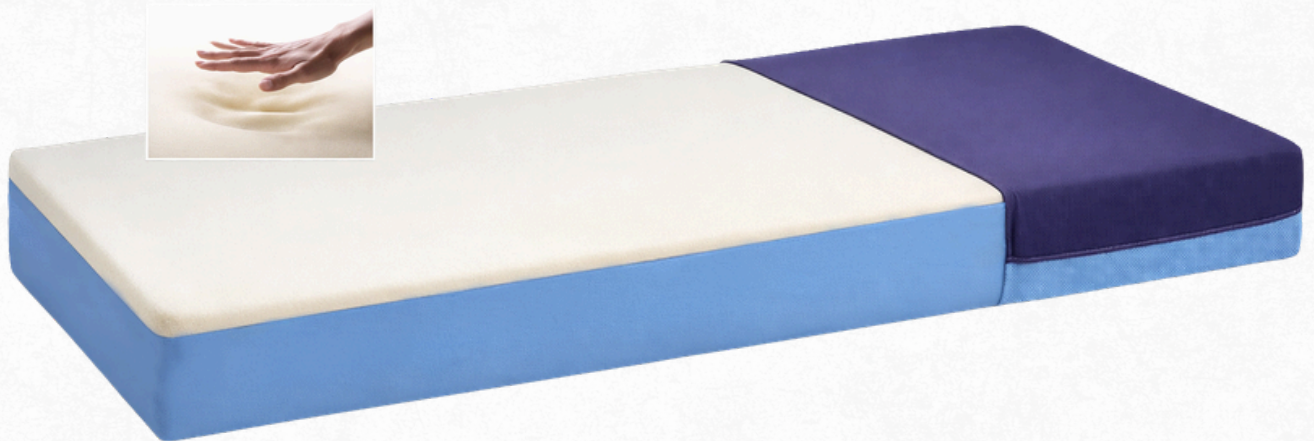

Antimicrobial Cover

Fluid Resistant Cover

MR-3

Comfort optimized surface for extended patient rest.

The **MR-3** combines a top layer of **Visco memory foam** with a plush foam support base to deliver exceptional comfort while promoting effective **pressure redistribution and pressure relief**. Designed to enhance patient comfort and support weight distribution, it also features a **breathable, fluid-resistant antimicrobial cover** for improved hygiene. Recommended for **palliative care settings where comfort is the top priority**.

Thickness	6"
Size	36" x 80"
Cover	Recovery 5 breathable antimicrobial cover
Capacity	250 lb

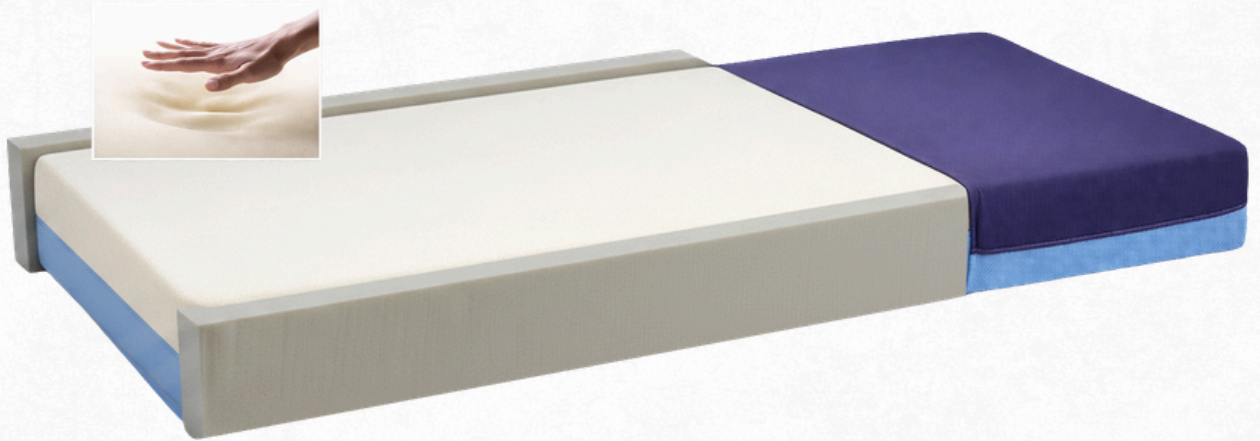

Antimicrobial Cover

Fluid Resistant Cover

MR-4

Comfort optimized surface for extended patient rest.

The **MR-4** combines a top layer of **Visco memory foam** with a plush foam support base to deliver exceptional comfort while promoting effective **pressure redistribution and pressure relief**. Designed to enhance patient comfort and support weight distribution, its reinforced transfer edges assist with safer patient transfers and easier completion of bedside daily activities (ADLs). Recommended for **palliative care settings where comfort is the top priority**.

Thickness	6"
Size	36" x 80"
Cover	Recovery 5 breathable antimicrobial cover
Capacity	250 lb

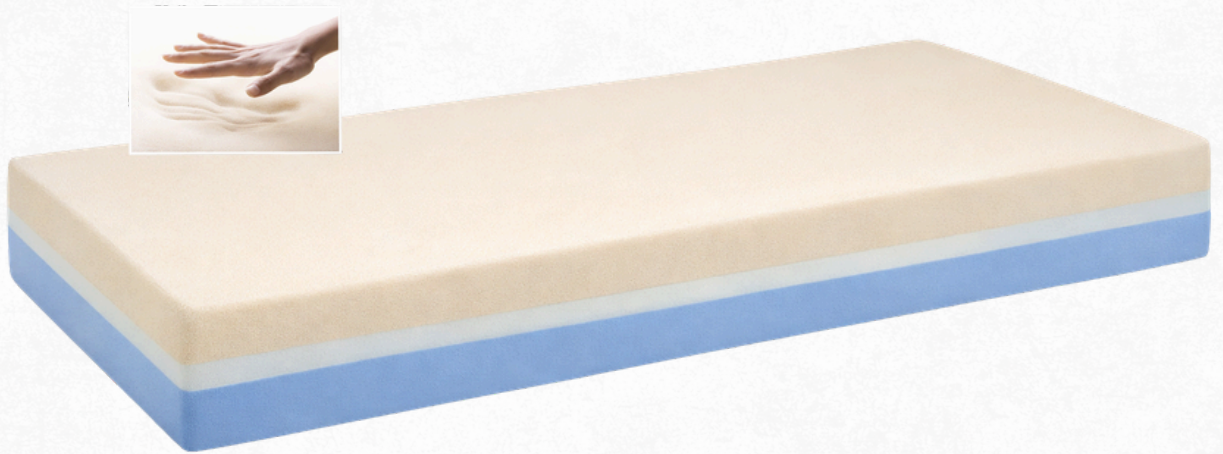

Antimicrobial Cover

Fluid Resistant Cover

MR-5 BARIATRIC

Bariatric support mattress engineered for heavier patient loads.

The **MEDREST MR-5** is designed to deliver superior comfort, support, and durability for bariatric patients. Its **tri-layer construction of high-density, high-resiliency foams combined with a Visco memory foam top layer** provides effective **pressure relief and weight redistribution**. Reinforced transfer edges assist with safer and easier patient transfers. The mattress also includes a **breathable, fluid-resistant antimicrobial cover** for enhanced hygiene.

Thickness	7"
Size	36" x 80"
Cover	Recovery 5 breathable antimicrobial cover
Capacity	350 lb

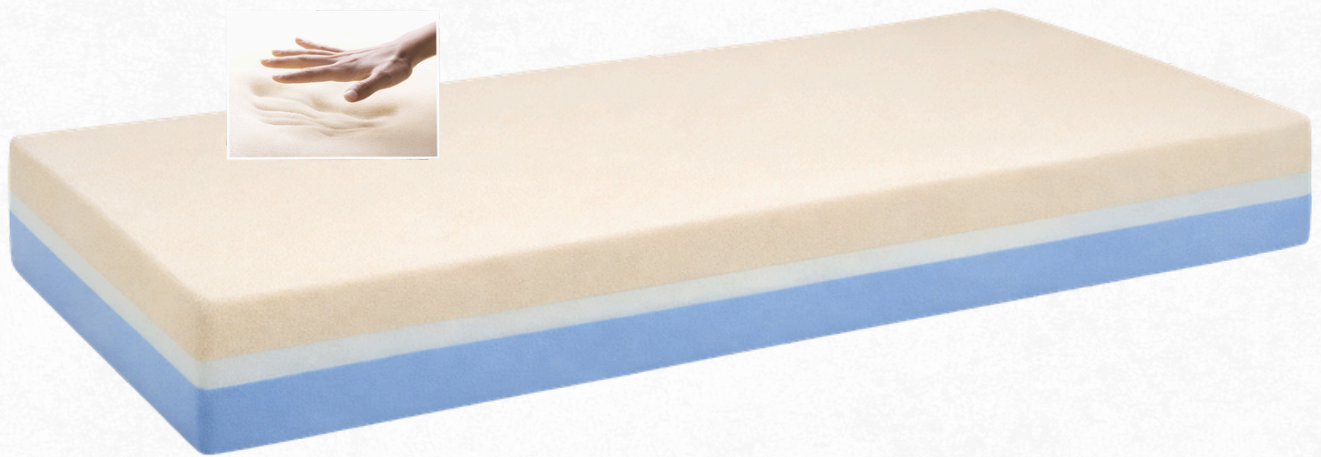

Antimicrobial Cover

Fluid Resistant Cover

MR-6 HEAVY BARIATRIC

Heavy duty bariatric mattress supporting up to 650 lb.

The **MEDREST MR-6** is engineered for enhanced **bariatric support, durability, and pressure relief**. Featuring a **tri-layer system of high-density foams with a Visco memory foam comfort layer**, it promotes optimal weight distribution and patient comfort. **Reinforced transfer edges** help facilitate safer patient movement and transfers. A **breathable, fluid-resistant antimicrobial cover** supports a clean and hygienic care environment.

Antimicrobial Cover

Fluid Resistant Cover

MR-7 (3040 NU)

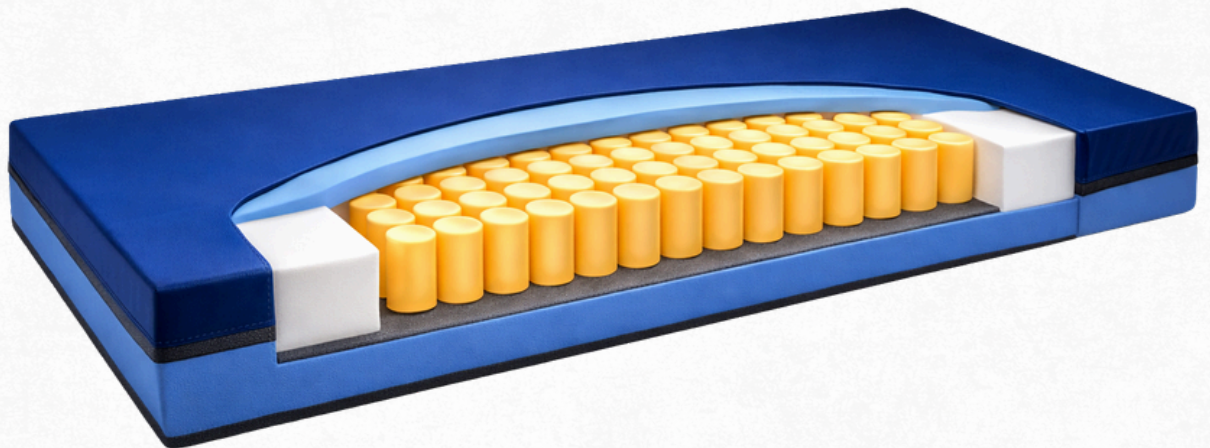

The **MEDREST MR-7 (3040 NU)** is designed to provide **enhanced lumbar support and effective pressure relief** for the lower back. Its specially engineered **foam construction** distributes weight evenly to reduce pressure points and improve patient comfort. The mattress comes with a **Recovery 5 breathable antimicrobial cover** that is **fluid-resistant** for improved hygiene and durability. It is ideal for Hospitals, nursing homes, long-term care facilities, and home care environments where **lower back support and pressure relief** are important.

Thickness	6"
Size	36" x 80"
Cover	Recovery 5 breathable antimicrobial cover
Capacity	350 lb

MR-7 (138 OPENING)

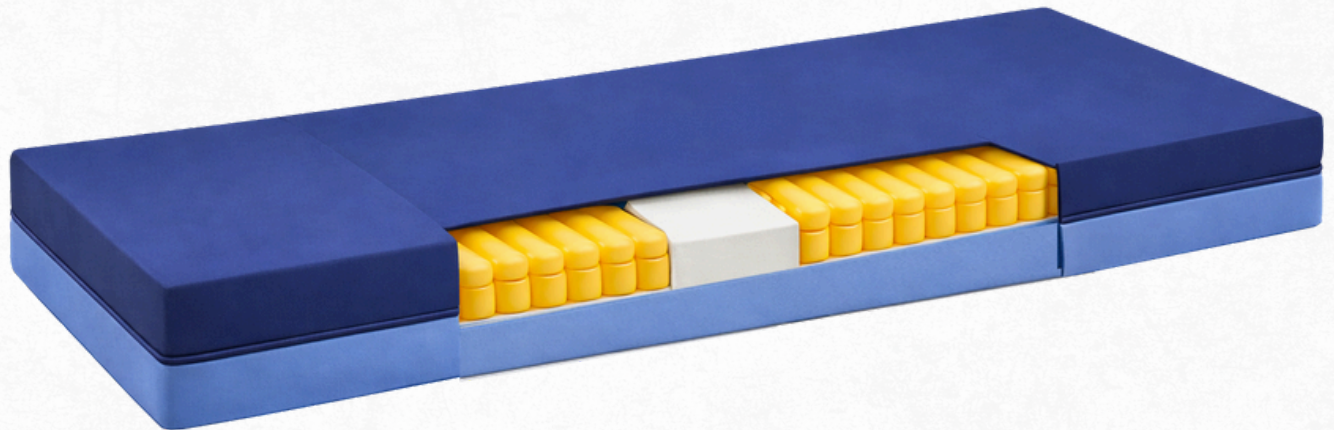

The **MEDREST MR-7 (138 OPENING)** is thoughtfully designed to deliver **enhanced lumbar support** while helping to relieve pressure in the lower back area. Its **advanced hybrid foam air system** works to improve pressure redistribution, promoting greater comfort and more balanced support during use.

Thickness	6"
Size	36" x 80"
Cover	Recovery 5 breathable antimicrobial cover
Capacity	350 lb

MR-7 (219 OPENING)

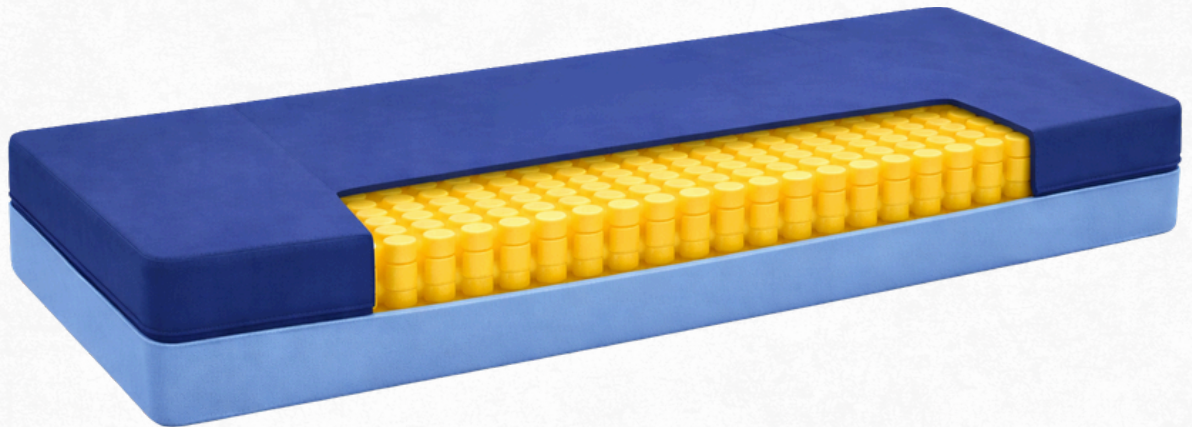

The **MEDREST MR-7 (219 OPENING)** is thoughtfully designed to deliver **enhanced lumbar support** while helping to relieve pressure in the lower back area. Its **advanced hybrid foam air system** works to improve pressure redistribution, promoting greater comfort and more balanced support during use.

Thickness	6"
Size	36" x 80"
Cover	Recovery 5 breathable antimicrobial cover
Capacity	350 lb

MR-7 (157 OPENING)

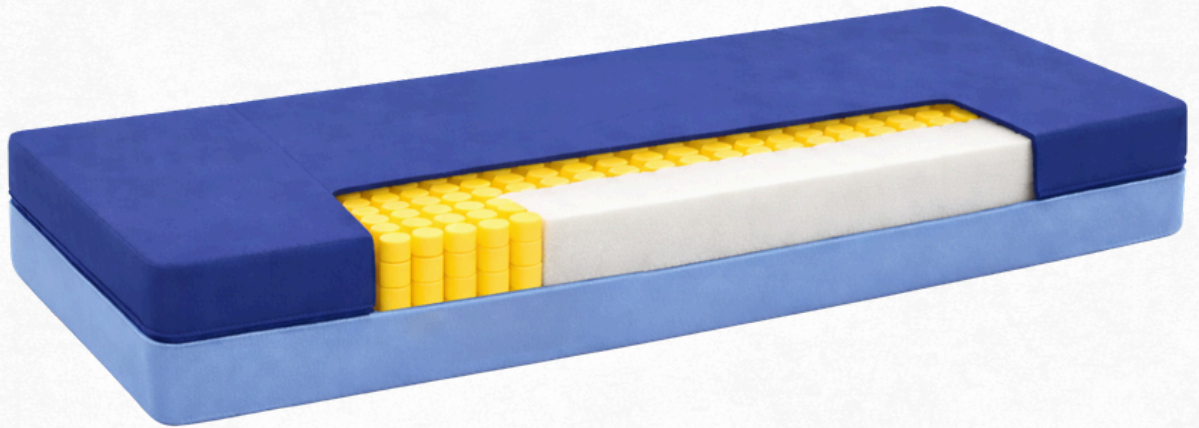

The **MEDREST MR-7 (157 OPENING)** is thoughtfully designed to deliver **enhanced lumbar support** while helping to relieve pressure in the lower back area. Its **advanced hybrid foam air system** works to improve pressure redistribution, promoting greater comfort and more balanced support during use.

Thickness	6"
Size	36" x 80"
Cover	Recovery 5 breathable antimicrobial cover
Capacity	350 lb

MR-7 (3040TNU T-SHAPED)

The **MEDREST MR-7 (3040TNU)** is thoughtfully designed to deliver **enhanced lumbar support** while helping to relieve pressure in the lower back area. Its **advanced hybrid foam air system** works to improve pressure redistribution, promoting greater comfort and more balanced support during use.

Thickness	6"
Size	36" x 80"
Cover	Recovery 5 breathable antimicrobial cover
Capacity	350 lb

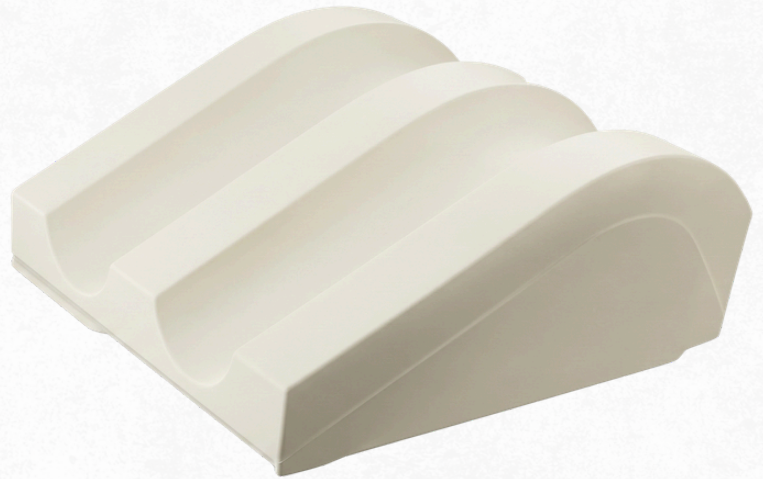

BODY WEDGE

Designed for patients who **need head, back, or leg elevation**, this support cushion offers a stable and comfortable **alternative to pillows or rolled towels**. It helps maintain proper positioning while promoting alignment and reducing strain. A reliable solution for both clinical and home settings, this support cushion ensures comfort, simplicity, and peace of mind in patient positioning.

VARIANT	CODE	DIMENSIONS	WHITE COVER	BLUE COVER	NO COVER

LARGE WEDGES	MR-AW2	3" - 1" H X 36" W X 20" D	✓	✓	✓

ORTHO CUSHION

An innovative body wedge designed for **versatile positioning**, providing **support for the back, knees, and legs** in a variety of applications. Includes a removable, washable white poly/cotton cover for easy care. The premium Orthocush version features a 1" Visco memory foam top layer for enhanced comfort and improved weight distribution.

VARIANT	CODE	DIMENSIONS	WHITE COVER	BLUE COVER	NO COVER
SMALL WEDGE	MR-OC1	8.5" H X 19" W X 24" D	✓		
LARGE WEDGE	MR-OC1	10" H X 22" W X 25" D	✓		

BARIATRIC BODY WEDGE

This positioning support is thoughtfully designed for bariatric patients who require safe and **comfortable elevation of the head, back, or legs**. It offers a convenient and cost-effective alternative to stacking pillows or using rolled towels, helping maintain secure and stable positioning. Engineered for maximum support, it enhances patient comfort during rest or recovery. The wedge includes a removable, washable navy cotton cover for easy care and hygiene. Built to accommodate **individuals up to 500 lbs**, it delivers reliable performance and durability for everyday use.

VARIANT	CODE	DIMENSIONS	WHITE COVER	BLUE COVER	NO COVER
STANDARD WEDGE	MR-BBW1	12" H X 29" W X 25" D		✓	

POSTURE PILLOW

A curved foam pillow designed to **deliver superior support and comfort** beyond traditional pillows. It helps position the head and neck for proper cervical alignment, promoting a more restful sleep. Ideal for **back or side sleepers**. Includes a washable, zippered white cotton cover for easy care.

LARGE	MR-PP3	5" H X 25" W X 15" D	✓		

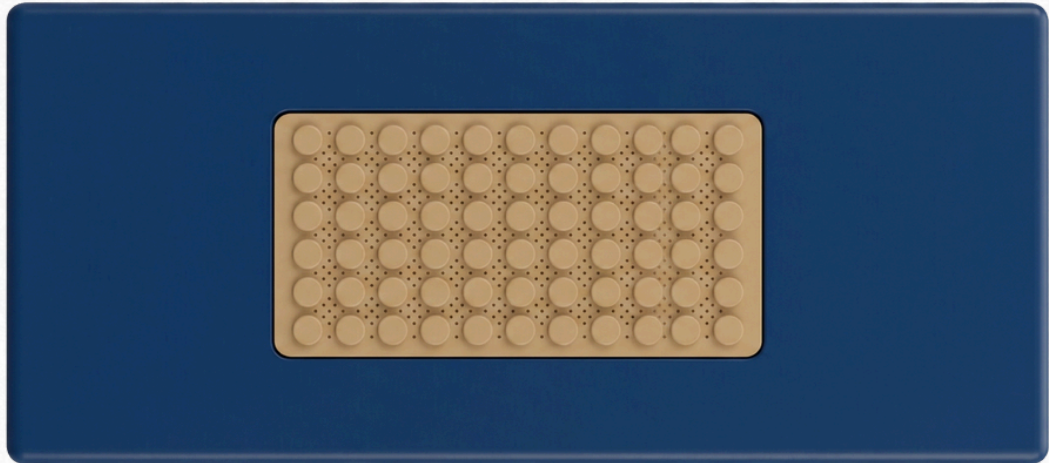

SMALL KNEE PILLOW

This small knee pillow is designed for side lying patients, helping **reduce back strain** by properly **aligning the legs and hips**. Its compact size provides targeted support and promotes a more natural, comfortable posture during rest or sleep. A removable, washable white poly/cotton cover ensures easy cleaning and everyday hygiene.

VARIANT	CODE	DIMENSIONS	WHITE COVER	BLUE COVER	NO COVER
STANDARD	MR-KP1	6" H X 11" W X 6" D	✓	✓	

LEVELING PADS

This foam leveling pad with **PGN71 cover** is designed with an internal cut out (19" x 34") to accommodate a Star mattress section, helping relieve pressure on sensitive areas. Made from **hypoallergenic, anti-microbial, and anti-bacterial foam**, it supports a cleaner and safer care environment. Ideal for both home and hospital use, it assists in the prevention and management of pressure sores in the pelvis and hip region.
